Havana Sospensione, outdoor

DESCRIPTION

The young, light-weight appearance recalling the shape of a cigar, which ironically gives it its name, the soft light that it emits and the ease with which it blends in with the most varied contexts, have made it the great success that it is today, so much so that it is also part of the permanent collection on exhibit at the New York MoMA. The outdoor version of Havana consists of a single polyethylene body with signs that recall its division into four segments, a division which distinguishes the design of the indoor version of Havana. The outdoor Havana is available as a suspension or floor lamp in two different heights.
